

### **JUDITH W. BOURGEOIS, OWNER/DESIGNER**

Planning a special event is both exciting and exhilarating. Choosing colors, using favorite flowers, all leading up to an event that will be remembered forever! Flora Fauna is a premier floral design studio established in 2004. We travel statewide to help design, plan and implement special events. At Flora Fauna, we are a family business that began from a passion for decorating and flowers. From their early days of planning backyard weddings, hayrides and neighborhood parties Judith, Kelly (their next door neighbor) and her 2 sisters have had a passion for entertaining. Kelly Curtis plays a critical role in creation, execution, photography and on site support. She and Judith grew up across the street from one another and have been working together at Flora Fauna for the last 4 years. Other members of the team are Judith's husband and sisters: Marc gives emotional and physical support, Debra is in advertising and Sarah is a curator/interior decorator in New York City. Together, along with Dick and Dolly, their mother and father, they work closely to create extraordinary events. The family support has been tremendous.

Our philosophy for planning and designing is to get to know our clients on a personal level. Communication is of the utmost concern to us so that we can produce an event that is exactly what you dreamed of. We ask our clients many questions to find out what their visions are for the job at hand. Flora Fauna is so much more than just flowers. Our team includes trusted stylists and gifted designers who create truly exquisite events. We keep current on the latest trends in colors, designs and fabrics. We have also aligned ourselves with vendors who provide the most up to date choices in events.

Recent clients have commented that our floral designs are "simply stunning", "not to be believed" and "WOW". A recent client wrote: "Dear Judy, You have been an amazing support through the whole planning process. Your creative flair, keen sense of timing and consistent organization are your gifts for which I have been truly grateful." Barb
